Anna Bogucka

A first boxer entered my life in 1964 a bit by a chance. It was the solid brindle female named Dora Dana of an average show quality but of perfect working abilities. She moved to my family home from our neighbours who were too busy to take a good care of young and full of temperament female. She produced one litter in 1967. In 1974, already as an adult, I bought my second boxer. This time it was very promising show quality puppy, the flashy red male Remi-Ivo, from well known those days polish kennel Hara. Ivo developed to an excellent show dog and even better producer. He became used to one of the tops, of that time, females in Poland. A puppy from that combination, Karolina Olga Greyxer, came to my home and grew up to not only unbeaten show star those days but also to a valuable foundation bitch of my kennel "Nostrum" founded in 1983.

I had a great luck to start breeding with that beautiful, healthy, of great character and temperament, flashy brindle female who lived with us 14 years. Karolina had very interesting pedigree with Italian and German background. Out of famous Xanthos v. Bereler Ries she gave me, in 2 subsequent litters, my unforgettable Int.Ch, PL Ch, 2 x Club Winner, also flashy brindle Montana and her older brother Ch. Ksiaze Pepi. All today Nostrum boxers are descended in a direct line from Karolina and Montana. So far, I've bred over 60 Champions, over 30 International Champions and 13 PL Club Winners.

My judge's path started in 1985 when I became authorized as a boxer judge. Since that time, I judged boxers in most European countries including GB and Ireland and such events as the World Show, 3 times Atibox and many championships boxer shows.

For many years I am also authorized FCI judge for all breeds from FCI groups 2 and 8.

Years 1985-93 and 1997-2017 I was a member of the Polish Kennel Club General Committee. Years 2017- 2021 I was a member of the Polish Kennel Club Disciplinary Board.

From 1987 to 2005 I served as the Polish Boxer Club v-ce President for breeding affairs and years 2005 - 2011 I had the honour to be its President.
